

```
#include<stdio.h> // Standard I/O Routines Library
#include<unistd.h> // Unix Standard Library
#include<pthread.h> // POSIX Thread Creation Library

void *customThreadFunction(){
    for(int i = 0; i < 5; i++){
        printf("I am a Custom Thread Function Created By Programmer.\n");
        sleep(1);
        if(i == 3){
            printf("My JOB is Done. I am now being terminated by programmer.-
\n");
            pthread_exit(NULL);
        }
    }
    return NULL;
}

int main(){
    pthread_t thread; // Thread Descriptor
    pthread_create(&thread, NULL, customThreadFunction, NULL);
    for(int i = 0; i < 5; i++){
        printf("I am the process thread created by compiler By default.\n");
        sleep(1);
    }
    return 0;
}
```
